

## TAC Allocations for CfA Telescopes in 2007

The following tables summarize requests and allocations for telescope time at FLWO, MMT, and Magellan for calendar year 2007. PIs typically request dark (D), grey (G), and bright (B) time for each program.

The 1.2-m telescope at FLWO is scheduled in four month trimesters. The optical CCD cameras are scheduled for all dark and most grey time. In the tables, allocations for these instruments are counted as dark time. The infrared camera STELIRCAM is scheduled for bright time.

The 1.5-m telescope at FLWO is scheduled in four month trimesters. The optical spectrograph FAST is scheduled for all dark and most grey time. In the tables, allocations for FAST are counted as dark time. The optical echelle is scheduled for bright time.

The MMT telescope is scheduled in four month trimesters. Dark and most grey time is allocated to programs using the optical imager MEGACAM and the optical spectrographs Blue Channel and Hectospec. Some grey time and all bright time are allocated to Hectochelle and the infrared camera SWIRC.

The two Magellan telescopes, Baade and Clay, are scheduled in six month trimesters. On Baade, dark time is allocated to programs using IMACS in f/2 and f/4 modes. Bright time programs use PANIC. Grey time proposals use both instruments. On Clay, the main dark time instruments are LDSS-3 and MagIC. MIKE is the primary bright time instrument. Grey time proposals use all three instruments.

Table 1. Requests &amp; Allocations: Trimester 2007A

Telescope	Nights Requested			Proposals Received	Nights Allocated			Proposals Accepted
	D	G	B		D	G	B	
Mag I	17.5	4.5	12.5	13	11.0	7.0	8.0	10
Mag II	8.0	4.0	18.0	12	10.0	6.0	11.0	9
MMT	50.0	11.9	19.8	41	20.5	9.5	19.5	26
1.5-m	84.0	0.0	75.0	26	75.0	0.0	45.0	23
1.2-m	181.0	0.0	2.0	15	120.0	0.0	0.0	14

Table 2. Requests and Allocation: Trimster 2007B

Telescope	Nights Requested			Proposals Received	Nights Allocated			Proposals Accepted
	D	G	B		D	G	B	
Mag I	26.0	7.0	14.5	20	12.0	8.0	12.0	14
Mag II	8.5	7.5	3.0	9	14.0	8.0	9.0	9
MMT	36.0	4.0	26.0	29	15.0	8.0	14.0	18
1.5-m	64.5	0.0	65.0	20	58.0	0.0	34.0	18
1.2-m	158.0	0.0	6.0	14	92.0	0.0	0.0	12

Table 3. Requests and Allocation: Trimster 2007C

Telescope	Nights Requested			Proposals Received	Nights Allocated			Proposals Accepted
	D	G	B		D	G	B	
MMT	36.0	12.0	36.25	35	20.5	9.0	18.5	24
1.5-m	81.0	26.0	80.0	29	70.0	0.0	52.0	28
1.2-m	153.0	0.0	3.0	12	122.0	0.0	0.0	10
